3-After the signup go to this link then click subscribe to test button.

<https://rapidapi.com/microsoft-azure-org-microsoft-cognitive-services/api/microsoft-translator-text>

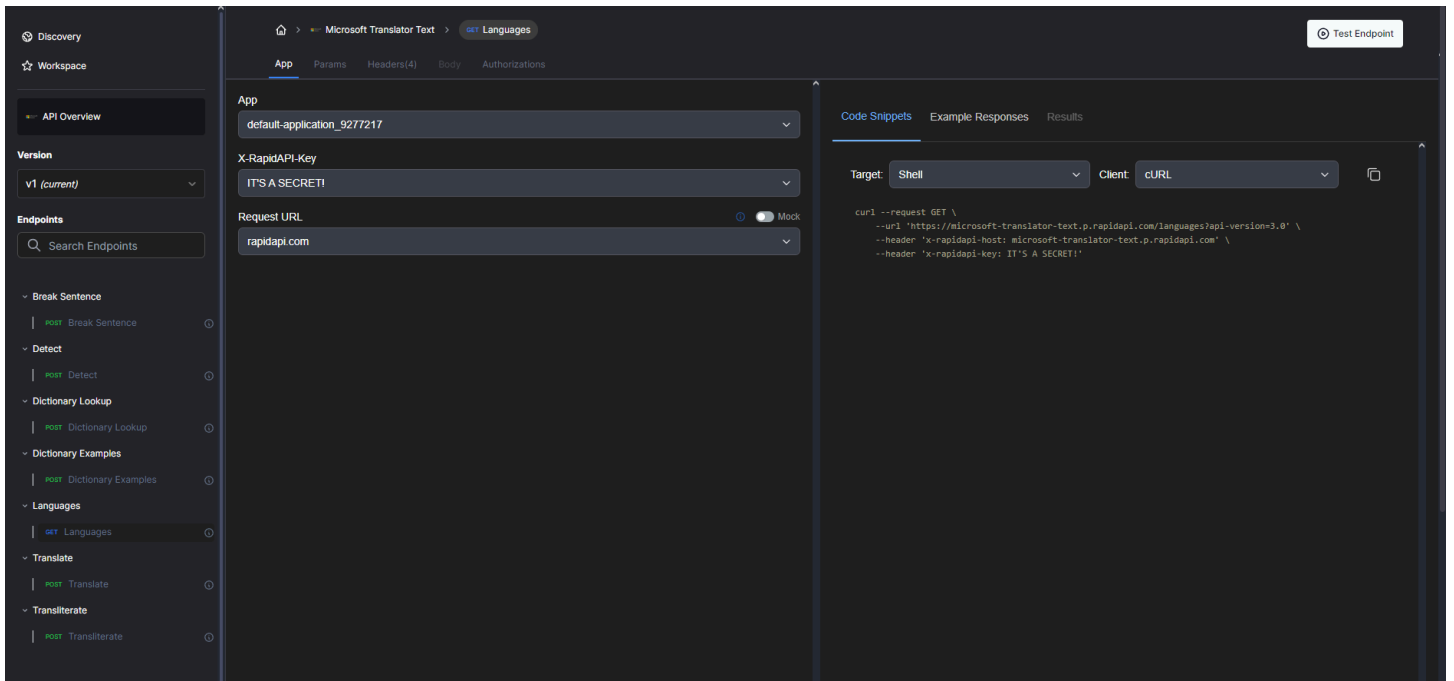

The screenshot shows the API page for Microsoft Translator Text. The interface includes a sidebar with navigation options like 'Discovery', 'Workspace', and 'API Overview'. The main content area displays the API name, a 5-star rating, and various statistics such as popularity, service level, latency, and test results. Below this, there are four pricing plans: BASIC (\$0.00/mo), PRO (\$10.00/mo), ULTRA (\$30.00/mo), and MEGA (\$60.00/mo). A blue button labeled 'See what subscription plans this API provides.' is visible. The 'API Overview' section includes an introduction and a list of features. A table under 'Base URLs' lists the API endpoints for Azure in Global and Europe regions. The 'Authentication' section is partially visible at the bottom. On the right side, the 'Provider Info' section shows the API creator as Microsoft Azure, the number of subscribers (16523), and the category (Translation). A red arrow points to the 'Subscribe to Test' button in the top right corner.

4-Then start free plan for free use. There is no charge for this plan no worries. There is no credit card required for this.

The screenshot shows the pricing page for the Microsoft Translator Text API. The page is titled 'Choose the plan that's right for' and features four pricing plans: Basic (\$0.00/mo), Pro (\$10.00/mo), Ultra (\$30.00/mo), and Mega (\$60.00/mo). Each plan card displays the monthly price, character limits, and rate limits. The Basic plan has a rate limit of 1000 requests per hour. A red arrow points to the 'Start Free Plan' button for the Basic plan. Below the pricing plans, there is a 'Pricing FAQs' section and a link to 'Is My Payment Information Secure?'.

5-After you subscribe you should get a screen like this.

6-You should see your api key on the right side. Take your api key without quotes. Then paste it to the addon.
