					Frequ	ently Asked Ques	stions						
	Is my payment information secure? Credit cards are processed through a FCI complant banking partner.												
	Why do you require a credit card for a freemium API? We work directly with API providen to implement cards, transparent prioring for developers. The Provider may require a credit card if a plan has a quota with an everage fee. If you would no longer like to use the API you can unsubscribe throm the plan at anytime by clicking the "unsubscribe" built on under the Billing action of the RapdAPI Delabboard.												
	What if I exceed my plan limits? Depending on your plan's specification, you will either incur overage charges or be suspended.												
	When will I be billed? We charge your credit card upon subscription to an APPs plan and at the next recurring interval.												

4-After you subscribe go to endpoints section.
